\_\_\_\_\_ **The Animal Hospital of Celina requires a Bordetella Vaccine on canine pets every 6 months.** This is for the safety and health of your pet, as well as for the safety of our other boarding and grooming guests. The Bordetella bacteria are spread through the air, and unfortunately, some dogs that are infected may be contagious before they start coughing. We will do everything possible to prevent your pet from contracting "Kennel Cough". Any dog that is coughing while boarding, or grooming, will be isolated and treated for "Kennel Cough", or other diagnosed reason for coughing at the Owner's expense.

\_\_\_\_\_ Should your pet become ill while boarding with us, you the owner, authorize the veterinarian and staff to medically treat your pet as needed and will be financially responsible for any additional fees incurred at time of departure.

\_\_\_\_\_ A **daily charge** will be applied for any **medication(s)** that need to be given while your pet is boarding. We provide Science Diet food, and bedding for your pet. You can also bring your pet's food, toys, and bedding from home.

\_\_\_\_\_ I understand that all reasonable precautions against illness, injury, escape or death of my pet will be taken. The Animal Hospital of Celina, the veterinarians and staff, will not be held liable, or responsible, in any manner or under any circumstances, in connection therewith, as it is understood that the owner assumes all risk.

\_\_\_\_\_ In accordance with Texas Law HB2063, I understand that no staff are present in the building after 6 pm until 7:30 am the following morning; and the kennel is not equipped with a fire protection sprinkler system
